

# Contents

<b>1</b>	<b>Troubleshooting Costs</b> . . . . .	<b>1</b>
	Jeffrey L. Kornacki	
<b>2</b>	<b>Selected Pathogens of Concern to Industrial Food Processors: Infectious, Toxigenic, Toxicoinfectious, Selected Emerging Pathogenic Bacteria</b> . . . . .	<b>5</b>
	Robert G. Behling, Joseph Eifert, Marilyn C. Erickson, Joshua B. Gurtler, Jeffrey L. Kornacki, Erick Line, Roy Radcliff, Elliot T. Ryser, Bradley Stawick, and Zhinong Yan	
<b>3</b>	<b>Solving Microbial Spoilage Problems in Processed Foods</b> . . . . .	<b>63</b>
	Rocelle Clavero	
<b>4</b>	<b>Where These Contaminants Are Found</b> . . . . .	<b>79</b>
	Jeffrey L. Kornacki	
<b>5</b>	<b>What Factors Are Required for Microbes to Grow, Survive, and Die?</b> . . . . .	<b>103</b>
	Jeffrey L. Kornacki	
<b>6</b>	<b>Where Do I Start (Beginning the Investigation)?</b> . . . . .	<b>117</b>
	Jeffrey L. Kornacki	
<b>7</b>	<b>How Do I Sample the Environment and Equipment?</b> . . . . .	<b>125</b>
	Jeffrey L. Kornacki	
<b>8</b>	<b>How Many Samples Do I Take?</b> . . . . .	<b>137</b>
	Jeffrey L. Kornacki	
<b>9</b>	<b>When Can I Start Up My Factory or Processing Line Again?</b> . . . . .	<b>147</b>
	Jeffrey L. Kornacki	
<b>10</b>	<b>Value and Methods for Molecular Subtyping of Bacteria</b> . . . . .	<b>157</b>
	Mark Moorman, Payton Pruet, and Martin Weidman	
<b>Index</b>	. . . . .	<b>175</b>
